EMPLOYMENT HISTORY:

Name of Company	Optinet - Division of Dimension Data: Contracted to Media 24
Date of Employment	July 2009 to present.
Positions Held	Desktop Support Team Leader, Mac Support Specialist, IT Desktop Support

Responsibilities: I oversee all desktop PC and Apple Mac-related queries. Previously, I served as a Team Leader in Sandton, where I managed a team of three desktop technicians who provided support to the magazine staff. Currently, I am based in Randburg Park, continuing to look after the company's desktop PCs and Apple Mac computers.

Overseeing and supporting all Desktop infrastructure for Magazines, News papers and Digital media at the Media 24 Organisation S A.

Setting up and preparing new and replacement Desktops, Laptops and Apple computers for new and existing Clients.

Conduct hardware replacements where required.

Maintain and troubleshoot any problems or queries logged by Customers.

Log calls and manage any issues with Vendors with regards to warranty replacements or purchase of new Laptops/Desktops.

Be knowledgeable on the following software to be installed and maintained.

Adobe Creative Cloud, Office 365, Idos, Sap, Windows 10 and 11, Apple Mac Operating System (Monterey, Ventura, Sanoma) and most previous versions. Avery Mac OS from OS.10 to latest.

Managing and installation of printers on site and ensuring configuration to Network. Deal with Vendors for maintenance, repairs and contract renewals.

Visits to remote site to perform required IT support.

Name of Company	Aberdare Cables (Pty) Ltd
Dates of Employment	March 1999 to Feb 2009
Position Held	PC and Network Technician

Responsibilities: My roles in the company included overseeing IT desktop requirements, installing and maintaining PCs, loading operating systems, and installing necessary third-party applications. I also managed the company's network infrastructure, including the installation of network points and switches. Additionally, I was responsible for maintaining the company's servers, creating new user accounts and email addresses in Active Directory, and conducting full backups of company data.

Other Responsibilities: Managing Company Pc Assets. Dealing with PC hardware vendors and warranties. Managing Company Network printers. (Ysoft)
